#### **Optics 1: Vergence - aao.org**

For the purposes of clinical optics, at what distance can we consider the vergence to be zero? There's no definitive answer to this However, consider that we refract patients at 6 m (20 feet) for their distance prescription In essence, we are treating 6 m as if it equals infinity The vergence at 6 m is  $1/6 = 0.17D$
